COURT INFORMATION

Court Portal

A Clear Digital Entry Point for Court Information and Services.

Court Portal provides an online access point for approved court information and services. It is designed to help courts make selected information easier to access while reducing routine manual requests and supporting a more consistent digital experience.

A SIMPLE AND SECURE PORTAL EXPERIENCE

Designed to help courts share information and services in a clear, structured and easy-to-use format.

Centralized Information

Approved Court Information

Provide access to selected, approved court information in one place.

Role-Based Access Pathways

Guide users to information and features appropriate for their role.

Service Links

Connect users to applicable court services and resources.

Easy access. Relevant services. A better experience for everyone.

Digital Access and Integration

Digital Court Interactions

Support digital interactions such as online forms, requests or submissions where configured.

Connected Solutions

Integrate with related court-management solutions to provide a more seamless experience.

Benefits for Your Agency

Improve Access

Make approved court information easier to find.

Reduce Manual Inquiries

Decrease routine information requests and staff workload.

Consistent Experience

Create a more consistent digital experience for users.

Connected Services

Link users to applicable court services and resources.

IDEAL FOR

Court Administration

Clerks and Judicial Offices

Justice-System Partners

Approved Public or Professional Users
