DIGITAL DISCOVERY

eDiscovery

Connected Discovery Management
for Justice Workflows.

eDiscovery helps justice agencies organize digital discovery materials, manage document and evidence activity, support review workflows, and improve coordination across authorized teams.

A MODERN FOUNDATION FOR DIGITAL DISCOVERY WORKFLOWS

Streamline document review, improve coordination, and support secure case preparation.

Evidence Records

Organize discovery files and related materials.

Document Access

Keep authorized files available in one place.

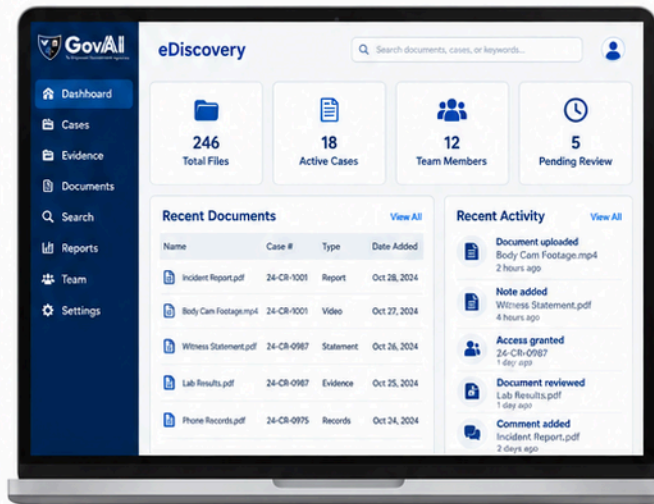

Review Workflow

Support review, notes, and preparation activity.

Search Support

Help staff find materials more efficiently.

Reporting + Visibility

Improve oversight into discovery activity.

Team Coordination

Support attorneys, investigators, and staff.

Connected Services

Support broader justice workflows.

Administrative Efficiency

Reduce repetitive work and improve consistency.

Benefits for Your Agency

Improve Organization

Keep discovery materials structured and accessible.

Support Preparation

Enable faster, more informed case preparation.

Reduce Admin Work

Minimize repetitive tasks and save time.

Strengthen Visibility

Increase transparency across the discovery process.

IDEAL FOR

District Attorney Offices

Public Defender Offices

Investigators

Support Staff
